„Alternative Pop-Rock with a touch of indie. A bit dreamy, but mostly emotional and intoxicating!“

That's how a young band from North-Rhine-Westphalia in the west of Germany describes its music: MISS MADISON, formed in early 2020, that is: Yannick, Simon, Jannik and Vincent. Four boys, in their twenties, all from Mönchengladbach.

Their lyrics are about dedication, love, desire as well as socially critical themes and experiences in our modern society. The sound stands for driving drums, deep basses, distorted indie guitars and spherical synth sounds. This unique sound is complemented by powerful and at the same time hymn-like vocals. "Here and then even with musical influences from U2 or Coldplay [...]."

(Herzog Kultur und Stadtmagazin Jülich)

After the release of their debut EP „[Midnight Stories](#)“ (October 2020) the next musical step followed in summer 2023 with the release of the new EP „[Lost Youth](#)“. Even though the themes of the songs are very different, they all unite in the social criticism they express. The folk song „[Up in the Sky](#)“ for example, deals with the threat of complete environmental destruction due to advancing climate change, while the song „[Bloodstream](#)“ thematizes the Ukraine/Russia conflict. "The new CD of the young band from Mönchengladbach treats the thoughts and discourses of an adolescent, lost youth and at the same time conveys associations of departure and awakening through their distinctive indie sound." (Rheinische Post)

Next to the current shows on city festivals and events on the stages in North-Rhine-Westphalia and in the Netherlands the boys were part of the renowned Bandcontest „Young Talents“ which took place in Viersen near Mönchengladbach. The four musicians were elected as best placed newcomerband this evening. [Here](#) you can find a cutout from this show.
